

What is MonitorBot?

MonitorBot is a Totally Integrated Moisture Monitoring system (T.I.M.M.) that once set up can be monitored remotely via the internet from your desktop, laptop, or PDA from anywhere in the world you have an internet connection.

You will get readings and charts on temperature, relative humidity, and GPP from the affected areas, unaffected

areas, HVAC system, outside air, and from your dehumidifiers. You will also get percent of moisture content from carpet and pad, wooden subfloor, and from drywall simultaneously. You will be alerted via email, voice, or text message that your job is dry to your "dry standard" or that something is wrong with the drying at the job site.

Functional Benefits

1. Real time monitoring 24 hours a day 7 days a week
2. Drying status can be viewed from anywhere you have an internet

connection on your desktop, laptop, or internet enabled PDA

3. MonitorBot monitors outside air, affected area air, unaffected area air, dehumidifier output air, and numerous structure points simultaneously
4. MonitorBot gives you more and more accurate real time data as to the drying status
5. You get peace of mind knowing that the information you are gathering is accurate and legible
6. You get color graphs that show the drying progress
7. You get automatic alerts via desktop, email, cell phone, pager, etc. to let you know if the equipment has been shut down, is malfunctioning, or that your drying goals have been met
8. MonitorBot fills out insurance forms automatically from the web site
9. MonitorBot is never in too busy to get accurate multipoint readings
10. You'll know precisely when the job is finished and when the equipment can be picked up resulting in better allocation of your drying resources.

What's going on at Sun-Brite

We would like to introduce a new addition to our team John Kritsberg as the Marketing Manager. John has moved from San Diego, CA where he worked for TaylorMade-adidas Golf Company in the marketing department as Performance Van Coordinator.

Prior to TaylorMade, John has been a facility instructor for the San Diego Golf Academy and also Head Golf Professional at a private country club. John has been a PGA member for over 10 years.

We are very excited to have John on our team and would

like to welcome him to the Restoration industry.

Certificate of Excellence

Sun-Brite awarded for outstanding performance from "State Farm Insurance Company's" Premier Service Program 2007
